Re: Release of Site – No Disturbance Created, J.R. Walker, Septarian Project, S/019/046, Grand County, Utah

Dear Mr. Walker:

On June 8, 2001, we received notification from the Bureau of Land Management (BLM) that they inspected your Septarian Nodule project area on April 17, 2001, in response to your request for release. The BLM found no visible mining disturbance in the general vicinity, and they recommended the file be closed. The Division last inspected the site on September 6, 2000, and found the only visible disturbances were the roads. As your project is located on BLM managed lands, the Division will accept the BLM's recommendation and also close our file for this project accordingly.

You are hereby released by the Division from further mining or reclamation responsibilities at this site. You are no longer required to pay the \$100.00 permit fee. If you wish to conduct any future mining related activity in this area, you will need to submit a new notice to the appropriate agency(s), pay the Division permit fee, and receive written approval(s), prior to creating any disturbance.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5267. Thank you for your time and consideration in completing the required reclamation on this project.

Sincerely,

Anthony A. Gallegos  
Senior Reclamation Specialist
